## *A Professional Quality Electronic Stethoscope for the Professional or the Do-It-Yourselfer*

**Locating the source of a problem is usually the biggest problem.**

But professionals know that correct diagnosis is the major hurdle to repair problems. The AudioTech Probe™ amplifies the sounds of trouble, so the problem can be found, diagnosed and quickly fixed.

Ideal for auto, boat, RV, motorcycle and heavy equipment mechanics, plumbers, appliance and air conditioning technicians... anyone with a noisy problem to fix! Thousands of uses!

Just put on the comfortable stereo headphones, turn on the AAA battery-powered amplifier and listen. The AudioTech Probe™ is lightweight, virtually indestructible and offers features such as:

- 180° swivel boom to reach those hard-to-reach places.
- 3 ft. headphone cord to avoid uncomfortable body positions.
- 7" stainless steel probe is removeable for air leak detection.
- volume knob to increase sound gain up to an additional 57dB.
- microphone is aluminum-enclosed to protect it from damage.
- air baffle to shut out fan noise.
- Model AT100 features sturdy vinyl carrying/storage case.
- full one year warranty.
